

Westminster Guidelines for Summer Gathering

Remembering our call as God's people in Christ to be mindful of the most vulnerable in our midst (see 1 Corinthians 12:22-27), the Westminster Session seeks to ensure the safety and wellbeing of all who participate in the life of our congregation. The following policies will be in place, through Sunday, August 29:

- 1. Masks for ages three and up will be required indoors for Sunday morning worship and other groups where children, youth and other potentially unvaccinated members are present.*
- 2. Smaller groups that do not include unvaccinated children or youth may determine their own mask-wearing guidelines, always with a priority on the needs of those members with health risks.*
- 3. Masks will not be required for outdoor events.*
- 4. In those gatherings where a mask is not required, you are still welcome to wear one.*

The Session encourages all Westminster members to be fully vaccinated unless health restrictions prevent them from doing so. This practice will help create a welcoming environment for all, allowing us to safely gather in the future with fewer restrictions.
